Putting Your Life in a Box

Calling all Magnifying Abilities Participants! Have you ever wondered what life would be like if you had to pack up and move to a different country? In this program you will help pack an immigrant trunk. You will have to choose what items to bring with to America and what to leave behind – not everything will fit in the trunk! You will be asked to think about what types of things immigrants would want to bring with them when they move to a new country where they have never been before. This activity is designed to encourage you to think about what it is like to leave a place you have always called home, for a new home in a strange country. This class will be held virtually on Zoom with the Carver County Historical Society. You will need access to the internet and a computer/laptop with a camera. You will be emailed the Zoom link the day before the class. **The last day to register for this class is 12/14.**
